

Black Cow Pure Milk Vodka, The Gold Top, 40% vol

Product Images

Description

A beautiful, smooth, refined vodka made from milk! Well the whey left after cheese production to be more accurate. It is well balanced and even just a touch creamy. Comes looking like an old fashioned Gold Top milk bottle.

Additional Information

Type	Spirits
ABV	40.0%
Bottle Size	70 cl
Country	England
Region	Vodka
Area	Pure Vodka
More Features	Screwcap
Notes	Screwcap
Press Reviews	<p>While there are sometimes very subtle flavours, vodka's charms to me are all about texture. Black Cow is made from whey, the by-product of cheese making, and has a lovely creamy mouthfeel with none of the acrid burn found in cheap, grain-based vodkas. I like it as a shot, freezer-cold, as a quick aperitif.</p> <p>Kate Hawkings, The Guardian, 30th April 2017 Made in Dorset from the milk of grass-fed cows, this is very smooth and broad with hints of vanilla and toffee, as well as some sweet creamy notes. There's richness, softness and real depth of flavour here.</p> <p>Jamie Goode, The Sunday Express, 10th December 2017</p>
